CAREER OBJECTIVE

I want to grow by applying my current knowledge & innovating the existing product. In the process, I want to not only explore new things but also become a valuable addition to the company.

PROJECTS

FITNESS PAL

A web application developed using ReactJS, where user has to enter his/her details and it will prepare a customized fatloss meal plan, according to users daily macro requirement.

FINANCE TUTOR

A quiz based web application developed using ReactJS, where user attempts a quiz after reading a passage and will only go to next level if he/she answers all the questions correctly, otherwise it will show an alert and redirects user back to the passage.

GITHUB CARD

A web application developed using ReactJS, where if user enters a username of any Github profile, it will fetch the details like name, profile picture, number of repositories, followers and following.
